WRITING

In this ten-lesson writing course, students will learn about basic writing patterns. The course includes warm-up exercises, detailed instructions and multiple examples for students to visualize writing movements. Students will also have the opportunity to practice writing strategies to develop functional handwriting. At the end of the course, students will be proficient in basic writing skills and able to compose words involving different types of letters.

LEARN TO READ - YOUTH

The NHEG Learn to Read online course aims to educate parents/tutors/teachers/guides on how to help their student practice reading skills and fluency, cultivate strategies for reading, broaden vocabulary, increase spelling ability and conquer reading anxieties. Proven exercises and fun tips are provided to keep the student motivated and engaged throughout the process. The course takes the student and their selected reading guide through easy-to-follow stages – Expectations & Tips for Success, Prepare, Read in a Relaxed Setting, After Reading, Daily Practice and Practice Tips – creating a foundation of literacy on which they can build over time.

This course is for younger students from first grade to seventh grade.
Note: This class works as a complement to the lessons in Natural Speller, which are available, for free, on NHEG's website.

LEARN TO READ - ADULTS

The NHEG Learn to Read: Adult Literacy online course gives teachers/tutors/reading guides strategies for helping older students acquire literacy skills and provides methods for consistent, repeated practice. The course demonstrates the reputable and proven Laubach method, and provides resources for continuing practice beyond the course: Preparing for the Course, Reading the Laubach Charts, Reading the Laubach Stories, Writing the Laubach Lessons, Continuing Your Practice – creating a foundation of literacy on which they can build through consistent, repeated practice.

NHEG recommends the Laubach Learning System for middle school, high school and adult reading students. An online course for younger students is also available.

NATURAL SPELLER

The NHEG Learn to Read online course aims to educate parents/tutors/teachers/guides on how to help their student practice reading skills and fluency, cultivate strategies for reading, broaden vocabulary, increase spelling ability and conquer reading anxieties. Proven exercises and fun tips are provided to keep the student motivated and engaged throughout the process. The course takes the student and her or his selected reading guide through easy-to-follow stages – Expectations & Tips for Success, Prepare, Read in a Relaxed Setting, After Reading, Daily Practice and Practice Tips – creating a foundation of literacy on which they can build over time.

Even though this course can be taken by a student of any age, we suggest the Laubach Learning System for middle school, high school and adult reading students. The course for using the Laubach Learning System is coming soon, so you will be able to choose which course is best for your student.

Note: This class works as a complement to the lessons in Natural Speller, which are available, for free, on NHEG's website.

Reading with Rishaan

Is a virtual reading program designed for young children to read books along with 6-year-old Rishaan Gupta on special occasions. (Pre-school – 1st grade students)

TWO TIER

The Hog Mollies Reading Time

FREE!

In partnership with 2nd & 7 Foundation and our Reading Ambassador Rhone-Ann Huang, we have implemented a virtual reading program for children. As part of 2nd & 7's "Tackling Illiteracy" program, and with the help of Zoom video conferencing, student-athletes will read with second-grade students and discuss why reading and staying on top of schoolwork is essential.

This school year, the volunteer readers are student-athletes from Dartmouth University. The "Hog Mollies" books were written by 2nd & 7. Each book is 30 pages and contains a different lesson and moral. There are 13 "Hog Mollies" books, and we have now read all of them. Don't worry "Hog Mollies" is releasing another book this summer. Check back for updates. All second-graders are welcome to listen.

All virtual readings are available from our site.

Foreign Languages

CHINESE

FREE!

The 10-week course will take place for one hour twice a week and will be open for middle school to adult students who wish to learn to speak and write Chinese.

The pre-recorded course will include greetings, essential dialogues, useful words and phrases and basic grammar. This course will also teach students basic writing. For those students who don't have a Chinese name, this course will assist students in getting theirs! Throughout the process, students will learn about Chinese cultures and etiquette. This class is a great beginning course for anyone who wants to learn Mandarin Chinese but doesn't know where to start.

The course will introduce the Chinese writing system, both pinyin and the romanization system. It will have step-by-step guides on how to write Chinese characters and is great for a self-motivated beginner student who wants to learn to speak, read and write in Chinese. The course will provide beginner students of Chinese with a good basic knowledge of the language and build a great foundation for future learning.

Science & Math

CHEMISTRY

In the NHEG Chemistry online course, we will provide you a better understanding of chemistry and how it is used.

We will discuss a variety of topics, from chemical bonds and reactions to electronegativity trends in the periodic table and atomic structure. It's important to complete all your assignments on time and on your own (and to have fun, too!).

GENEALOGY & DNA

NHEG is launching a Genealogy and Education course and a DNA and Education eourse. These courses will help students begin to explore their ancestry and are a precursor to a potential genealogy program that will help youth explore their roots.

These classes are for middle- and high school-level students and adults. In this course, students will explore the history of genealogy and be inspired to learn about their family history and its connection to their community.

Course topics:

- History of genealogy
- Family history and its ties to their environment
- Significance of learning about family history
- Steps to researching family history
- Sites to help organize a family tree
- Steps to downloading and transferring family tree data

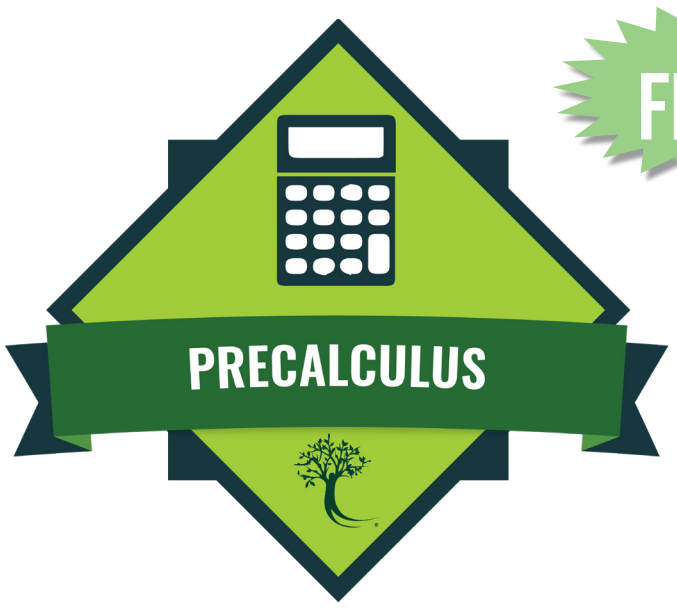

ALGEBRA 1

Algebra 1 is a high-school level course that is typically taken in the 9th grade. It prepares students for more advanced mathematics. In this course, students will be introduced to the concepts of variables, negative numbers and advanced mathematical operations and use them to write, solve and graph linear and quadratic equations.

Students should have a strong foundation in basic mathematical operations and will develop the analytical and critical-thinking skills needed to model real-life application word problems. The tutor uses "Teaching Textbooks" to teach this course.

ORPHAN TRAIN

The Orphan Train Movement was a supervised welfare program that transported orphaned and homeless children from crowded eastern cities of the United States to foster homes located largely in rural areas of the Midwest. The orphan trains operated between 1854 and 1929, relocating about 200,000 orphaned, abandoned or homeless children. Charles Loring Brace, founder of the Children's Aid Society, decided the best way to help these children would be to take them out of the crowded eastern cities and instead put them in farming families in the Midwest.

He believed by removing them from poverty, he would be able to change the fates of the children and allow them to be able to make something of their lives. Children would be transported by train from the east to the Midwest where they lived and worked with farming families for free. On the route west, the orphan trains stopped in 45 states across the country. This program helped over 120,000 children and led to reforms in child labor policies, adoption and foster care policies, health care and public education.
